

APPENDIX G

INDUSTRY PROFILE

TOWN OF SOUTHOLD

INDUSTRY PROFILE

An Industry Profile was created, including detailed data pertaining to the current state (2008 annual data) of the Town's economy. This Industry Profile depicts the top ten industries in the Town of Southold, in terms of the number of persons employed within each sector (**Table 1**), the total labor income (**Table 2**), and the total output in terms of the dollar contribution to the local economy (**Table 3**). In addition to townwide data, the Industry Profile also illustrates zip code-specific data, which generally follows hamlet boundaries. These zip codes are organized by the United States Postal Service as follows:

- 06390: Fishers Island
- 11935: Cutchogue
- 11939: East Marion
- 11944: Greenport
- 11948: Laurel
- 11952: Mattituck
- 11956: New Suffolk
- 11957: Orient
- 11958: Peconic
- 11971: Southold

Summary tables were created to depict the top ten industries in each zip code, in terms of the number of persons employed within each sector (**Table 4**), the total labor income (**Table 5**), and the total output in terms of the dollar contribution to the local economy (**Table 6**). The last set of tables illustrates all industry data, sorted by zip code. **Table 7** shows employment within all industries, **Table 8** shows labor income within all industries, and **Table 9** shows output within all industries.

All data – townwide and zip-code-specific – was gathered, presented and organized by Minnesota IMPLAN Group, through their an economic impact modeling system called IMPLAN, short for “impact analysis for planning”. Though the IMPLAN model is used mostly for estimating local economic multipliers, the program also provides pertinent data – including production, value-added, employment, wage and supplier data – that was used for the preparation of this Industry Profile. This data has been differentiated between 440 sectors that are recognized by the United States Department of Commerce.

IMPLAN's data is derived from production, employment and trade data from sources including the United States Census Bureau, County Business Patterns, Annual Survey of Government Employment, Annual Survey of Retail Trade; United States Bureau of Labor Statistics, Quarterly

Census of Employment and Wages, Consumer Expenditure Survey; United States Department of Labor; Office of Management and Budget; United States Department of Commerce; Internal Revenue Service; United States Department of Agriculture, National Agricultural Statistical Service; Federal Procurement Data Center; and United States Bureau of Economic Analysis, Regional Economic Information System, Survey of Current Business, among other national, regional, state and local data sources.
